### PROFILE

I am a front-end developer with experience in building and deploying interactive web applications using HTML, CSS, JavaScript, and React. I am currently interning at HNG, where I have worked on a variety of projects, including building new features for the HNG website, contributing to open-source front-end projects, and building my own personal website.

I am eager to start my career as a front-end developer, and I am confident that I have the skills and experience necessary to be successful in this role. I am a quick learner and I am always eager to take on new challenges. I am also a team player and I am excited to collaborate with others to build great things.

### PROFESSIONAL EXPERIENCE

#### Frontend Developer Intern

2023 August – present

- Developing and maintaining web applications using React.js and other related technologies.
- Collaborating with cross-functional teams including designers, product managers, and other developers to create high-quality products.
- Implementing responsive design and ensuring cross-browser compatibility.
- Participating in code reviews and providing constructive feedback to other developers.
